Accounting and Auditing Developments ISSUE 8 - OCTOBER 2007

## ACCOUNTING UPDATE

### New AASB 101 'Presentation of Financial Statements'

The AASB has issued a revised AASB 101 as a result of the International Accounting Standards Board (IASB) issuing a revised IAS 1 'Presentation of Financial Statements'.

The revised AASB 101 will result in significant changes to Australian financial reports. Income and expenses must be presented in either a single statement or in two statements. The single statement is referred to as a statement of comprehensive income. Alternatively, an entity can present a separate income statement and a statement of comprehensive income. The intent is that owner changes in equity are presented separately from non-owner changes in equity.

A further standard, AASB 2007-8 'Amendments to Australian Accounting Standards arising from AASB 101' contains the consequential amendments to other Standards (and Interpretations).

The Standard is available on the AASB's website. The new AASB 101, and AASB 2007-8, will apply for annual reporting periods beginning on or after 1 January 2009.

### New AASB 1049 'Whole of Government and General Government Sector Financial Reporting'

The AASB has approved for issue a new version of AASB 1049. The existing AASB 1049 addresses financial reporting of General Government Sectors. This new version also includes requirements for whole of government financial reporting.

The new Standard includes different presentation and disclosure requirements. This means that whole of government financial reporting will look different from previous reports prepared under the old requirements.

The Standard is expected to be released on the AASB's website shortly. The new AASB 1049 will apply for annual reporting periods beginning on or after 1 July 2008.

### Exposure drafts

#### *ED 157 Joint Arrangements*

This exposure draft is based upon the International Accounting Standards Board (IASB) ED 9 'Joint Arrangements'. It proposes several changes to the current accounting required by AASB 131 'Interests in Joint Ventures'. It also proposes new disclosure requirements.

ED 157 proposes shifting the focus from the legal form of a joint arrangement to reflect the rights and obligations agreed by the parties to the arrangement.

#### *ED 158 Proposed Amendments to AASB 139 Financial Instruments: Recognition and Measurement - Exposures Qualifying for Hedge Accounting*

ED 158 proposes changes to AASB 139 'Financial Instruments: Recognition and Measurement' in relation to exposures qualifying for hedge accounting. The proposals would clarify what can be designated as a hedged item in a hedge accounting relationship.

#### *ED 159 Proposed Improvements to Australian Accounting Standards*

ED 159 proposes amendments to 27 Australian Accounting Standards. The exposure draft is based upon the IASB's 'Proposed Improvements to International Financial Reporting Standards', which was released as part of the IASB's annual improvements project.

The changes proposed include a restructuring of IFRS 1 'First-time Adoption of International Financial Reporting Standards' and removing unintended inconsistencies between IFRS.

Copies of all three exposure draft are available from the AASB's website: [www.aasb.com.au](http://www.aasb.com.au). Comments are requested in all instances by 30 November 2007.

## Australian Accounting Standards Board (AASB) meeting 3-4 October 2007

### *GAAP/GFS harmonisation*

The Board has approved AASB 1049 'Whole of Government and General Government Sector Financial Reporting'. Refer above for more information.

### *Review of AAS 27, AAS 29 and AAS 31*

The Board commenced its review of responses to ED 156 'Proposals Arising from the Short-term Review of the Requirements in AAS 27, AAS 29 and AAS 31'. The Board will continue this process at its November 2007 meeting.

### *Exposure drafts*

The Board agreed to issue an Australian exposure draft based on the international exposure draft ED 9 'Joint Arrangements'. Refer above for more information.

They also agreed to issue an Australian exposure draft based on the international exposure draft ED 'Proposed Amendments to IAS 39 Financial Instruments: Recognition and Measurement - Exposures Qualifying for Hedge Accounting'. Refer above for more information.

### *Interpretations*

The Board will make submissions on the international proposals:

- IFRIC Draft Interpretation D21 Real Estate Sales
- IFRIC Draft Interpretation D22 Hedging of a Net Investment in a Foreign Operation.

### *Differential reporting/SMEs*

The closing date for comments on ITC 12 'Request for Comment on a Proposed Revised Differential Reporting Regime for Australia and IASB Exposure Draft of a Proposed IFRS for Small and Medium Sized Entities' has passed. The Board considered submissions received on the proposed IFRS for SMEs. The Board will consider submissions on the differential reporting proposals at its December meeting.

### *Joint meeting with the New Zealand Financial Reporting Standards Board (FRSB)*

The AASB's October meeting included a joint meeting with the New Zealand Financial Reporting Standards Board (FRSB). Matters discussed included:

- the potential for removing the requirement for for-profit entities to disclose compliance with 'Australian equivalents to IFRS' (and 'New Zealand equivalents to IFRS'). The terms may wrongly imply that the national Standards are not IFRS compliant
- a draft Issues Paper on identifying and accounting for non-exchange transactions. The Boards are developing a joint Discussion Paper as a first step towards common Standards on income from non-exchange transactions. In Australia, that Standard would replace AASB 1004 'Contributions'
- the approach to modifying IFRSs for application by not-for-profit/public benefits entities. Most members support the approach of modifying IFRS only when there is an entity specific reason for doing so. The Boards agreed to jointly develop a paper to form the basis of a policy for identifying such reasons
- the Boards agreed that they held similar views on the proposals set out in the International Accounting Standards Board's Discussion paper 'Preliminary Views on Insurance Contracts'
- sectors of the economy in which the two Boards could co-operate when working on changes to their respective differential reporting regimes. They agreed there was scope in the public benefit/not-for-profit sectors
- the Boards agreed to a goal of the same not-for-profit/public benefit entity requirements in both Australia and New Zealand.

## Development in accounting by superannuation funds

The Australian Accounting Standards Board (AASB) has released a consultation paper that affects superannuation entities. The Paper outlines a case for superannuation entities being required to prepare consolidated financial statements in accordance with a fair value model.

Fair values or market values provide relevant information because this reflects the superannuation entity's ability to pay benefits to members. However, some of the requirements applicable to consolidated financial statements do not compel parent entities to measure their subsidiaries' assets at fair value.

The consultation paper is available on the AASB's website: [www.aasb.com.au](http://www.aasb.com.au). Comments on matters discussed in the Paper are requested by 30 November 2007.

### *Proposed Standard: ASRE 2400 Review of Financial Reports and Other Historical Information*

The AUASB has issued an exposure draft proposing requirements and guidance for certain review engagements. ASRE 2400 is split into two parts. Part A addresses the review of financial reports and Part B addresses the review of other financial information.

ASRE will not apply to the review of an interim financial report by the auditor of the entity. Auditors will continue to use ASRE 2410 in those circumstances. ASAE 3000 'Assurance Engagements Other Than Audits or Reviews of Historical Financial Information' is relevant for review engagements not addressed by ASRE 2410 and the proposed ASRE 2400, such as the review of prospective financial information.

A copy of the exposure draft is available from the AUASB's website: [www.auasb.gov.au](http://www.auasb.gov.au). Comments are requested by 31 October 2007.
